Platform built for a retail scale

**Adapt and Keep Adapting**  
Real-time data and a real-time ledger built for the future of fintech

### Operate with Enterprise-Grade Efficiency

**Deliver Confidently**  
Real-time ledger providing up-to-date account and activity information

**Address Risk Mitigation**  
Enabling faster, more informed decisions about your business risks with customizable reporting on your own real-time data, plus built-in personal identifying information (PII) management.

**Get Support**  
Veteran teams of operations, client service, and financial crimes compliance professionals

## Meet Infrastructure, Unencumbered

Unencumbered by legacy constraints, Ascend's cloud-based infrastructure gives you the built-in tools and data to more easily build, integrate, and scale — and operate globally.

### Real-Time Ledger

Get 24/7 API delivery of updated account activity, balances, positions, cash, buying power, and more. The ledger is a single source of truth enabling real-time custody and clearing, aggregated data, and closer integrations.

### Cloud Data and Business Intelligence Platform

With customizable automated reporting, visualizations, and more — Ascend's cloud-native platform enables you to make faster, more informed decisions and better integrate data insights into your operations.

### Modern Developer Experience

With a modern portal with sandbox, SDKs, APIs, and UIs — build digital-first retail investment and trading solutions across asset classes, account types, investment solutions, and delivery models.

## An Integrated Suite of Investing Products

### Account Setup and Maintenance

#### Onboarding

- Real-time account opening with straight-through processing

#### Funding and Cash Movement

- Variety of funding rails, each with different cost and settlement speed advantages

### Trading Capabilities

#### Trading, Execution, and Order Management

- Execution platform featuring fractional trading capabilities, smart order routing, algorithmic trading, and a built-in order management system.

#### Rebalancing

- Built-in customizable, cloud-scale solution for automated portfolio rebalancing, model management and goals-based investing across multiple asset classes.

### Asset Custody

#### Corporate Actions Processing

- Corporate actions occur via streaming events — with the aim to ensure investor transparency and risk mitigation. Explore upcoming events using our calendar with underlying details at your fingertips.

#### Investor Documentation and Communications

- Real-time investor access to required statements and confirmations, documentation in your own branding, customization at cloud speeds.
