

## **Bryce Harris, Product Lead, Digital Markets**

Bryce Harris leads product at Apex Fintech Solutions' Digital Markets group. Prior to joining Apex, at PEAK6, he led the development of the Non-Traditional Asset Platform (NTAP) that supported Apex's prediction market exchange integration. He partners with engineering, operations, legal, and compliance on trading infrastructure, risk controls, and client adoption. Previously, Bryce held product and engineering roles at Microsoft, working on Microsoft 365 and Copilot AI. His focus is bringing emerging technology and new investment products to market responsibly and at scale.
