

Travis McGhee, Head of Global Digital Markets

Travis McGhee is Head of Global Digital Markets at Apex Fintech Solutions, where he leads the company's digital markets strategy, product development, regulatory engagement, and global partnerships. McGhee brings more than two decades of experience across digital assets, derivatives, and regulated financial markets. He joins Apex from Crypto.com, where he served as EVP, Global Head of Predictions, overseeing the company's event contracts and prediction markets business. Prior to that, he served as Chief Executive Officer of Nadex, a CFTC-regulated derivatives exchange, leading the organization through its acquisition by Crypto.com. His career also includes senior leadership roles at TradeStation, OptionsHouse, and TradeMonster, as well as experience on the trading floors of the Chicago Mercantile Exchange.
